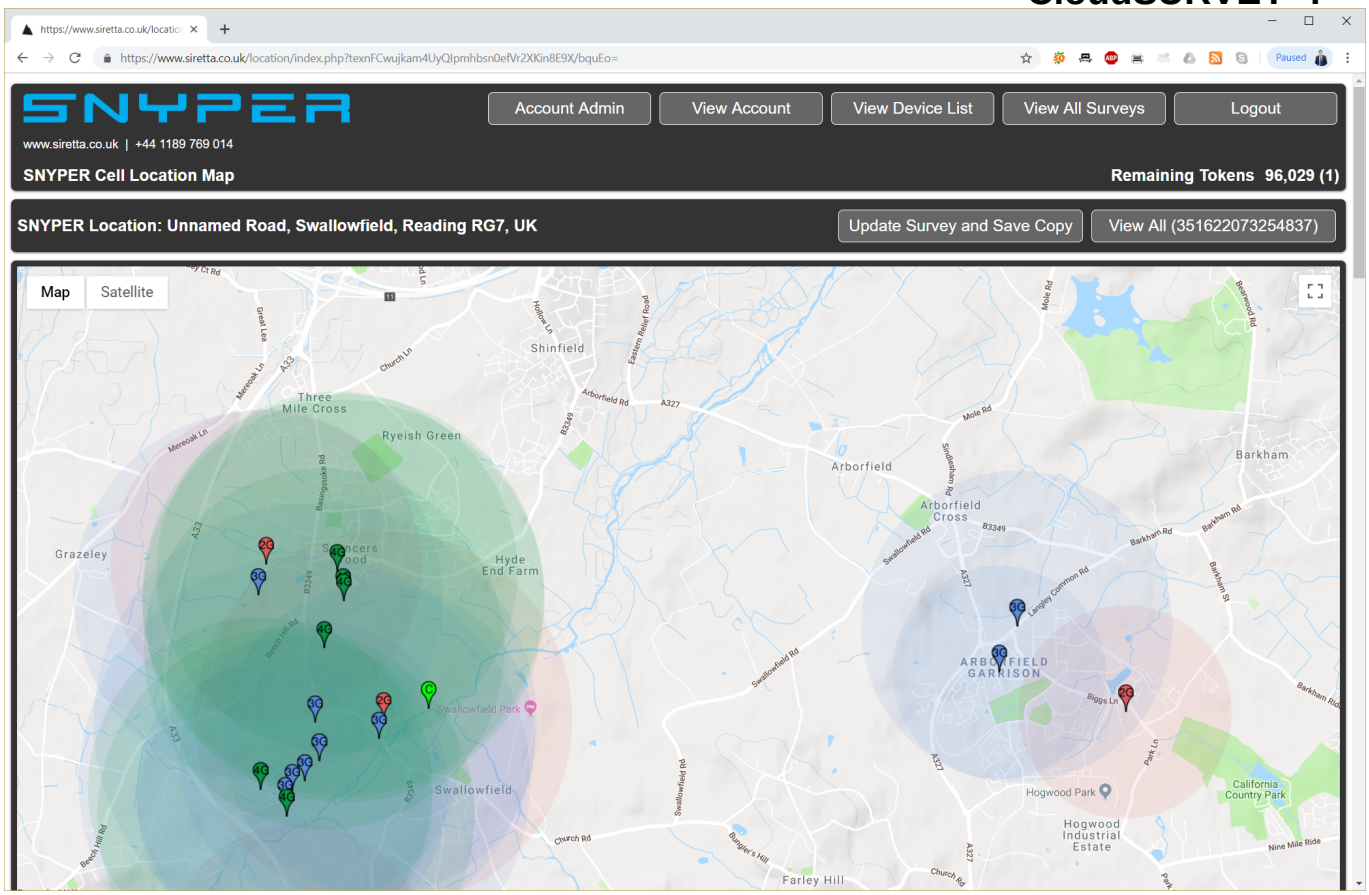
Siretta
Enabling Industrial IoT

Did you know it's possible to view your SNYPER Surveys on a map, thanks to Siretta's mapping portal, "CloudSURVEY"?



Here are just a few things you can do with CloudSURVEY:

- Store all survey results in a central location in the cloud
- Show approximate base-station information across available networks
- Filter your map to display 2G, 3G or 4G only base-station markers
- Quickly determine the dominant network provider
- Label and categorise survey results
- Display advanced network parameters for easy comparison

The CloudSURVEY portal is compatible with the following SNYPER models:

- SNYPER-LTE Graphyte (EU) & (USA) models
- SNYPER-LTE+ (EU) & (USA) models
- SNYPER-LTE+ Spectrum (EU) model

If you want to know more, why not download Siretta's CloudSURVEY user manual.
