Have you heard about Siretta's SNYPER-LTE+ (EU) and SNYPER-LTE+ Spectrum (EU) models?

These cellular signal analysers offer the following extra features over the previous models:

- SIM Free surveys
- Detection of all “local visible” LTE base-stations
- Coverage of two more LTE (EU) frequencies
- Time-stamping of surveys
- 4 survey options – 2G only, 3G only, 4G only and a full combination
